

AIBS PROFESSIONAL DEVELOPMENT PROGRAMS

COMMUNICATIONS BOOT CAMP FOR SCIENTISTS

This workshop provides hands-on training in science communication with a focus on engaging the news media and decision-makers, including policymakers.

ENABLING INTERDISCIPLINARY & TEAM SCIENCE

This course provides scientists with the collaboration and teamwork skills they need to become productive and effective members of interdisciplinary scientific teams.

WRITING FOR IMPACT AND INFLUENCE

This online course is designed to help biologists, including graduate students, develop their written communication skills to increase the power of their message.

EMPLOYMENT ACQUISITION SKILLS BOOT CAMP FOR SCIENTISTS

This intensive, multi-day program blends asynchronous modules, live lecture, and hands-on exercises to help scientists hone and practice the skills needed to secure employment in diverse careers.

PRE-SUBMISSION ADVISORY REVIEW FOR PROPOSALS

With this service, a draft proposal is reviewed by subject matter experts that provide feedback and recommendations to help improve proposals before they are submitted to funding agencies.

AIBS can bring these courses to your university, department, lab, or research team. Our programs are customizable and can be offered both online and in person. Contact us to learn more.
